Service Campaign 10-101

Introduction

Think has decided to implement service campaign on the vin label (Type approval label)

The reason for service campaign is that it turns out that it is mounted the wrong type approval notice from our production department in Finland. This applies for vin nr U005001 til U005027 with the exception of vin U005022-U005026.

Remove the old type approval mark to replace it with the correct label. Attach the foil over the label.

Be sure new type approval mark are secure.

We ask that this be carried out as soon as possible with the help of recall if required.
