

To our workshops

Service Campaign 10-102

Introduction

Think has decided to implement service campaign on the bolts for the upper frame

The reason for service campaign is that it turns out that it is mounted wrong type of bolts for the upper frame in our production department in Finland.

This applies to cars with vin number U005002 to U005052

We ask that this be carried out as soon as possible with the help of recall if necessary.

Remove front fenders and sills on both sides. (see workshop manual) Replace the bolts on the a-b post. On the c post It is only necessary to replace 3 bolts. Total 18 bolts. NB! Remove only one bolt at a time so the upper frame not gets out of position.

Time

Time: 2 our pr car

Administration

The workshop fills out an ordinary claim report (service manual Z8 Complaints Report and application) with reference to the relevant service campaign, and send this to THINK with the invoice for the elapsed working hours and the completed feedback form.

Parts

Workshops orders parts in the usual manner in a notice of claim

006.0820.F

Order from ; reservedeler@think.no

Time plan

Services campaign comes from today's date.
